Introduction

In Region IV-A Batangas Area poverty makes life difficult for every family member and for families as a whole in a society where injustice and discrimination are common and the screws of austerity and budget cuts continue to tighten. Poverty causes an imbalance in society's quality, resulting in ignorant individuals becoming homeless and unemployed, which leads to crime and revolution. People are usually involved in crime because they just cruise the streets looking for something worth to them in order to profit from it.
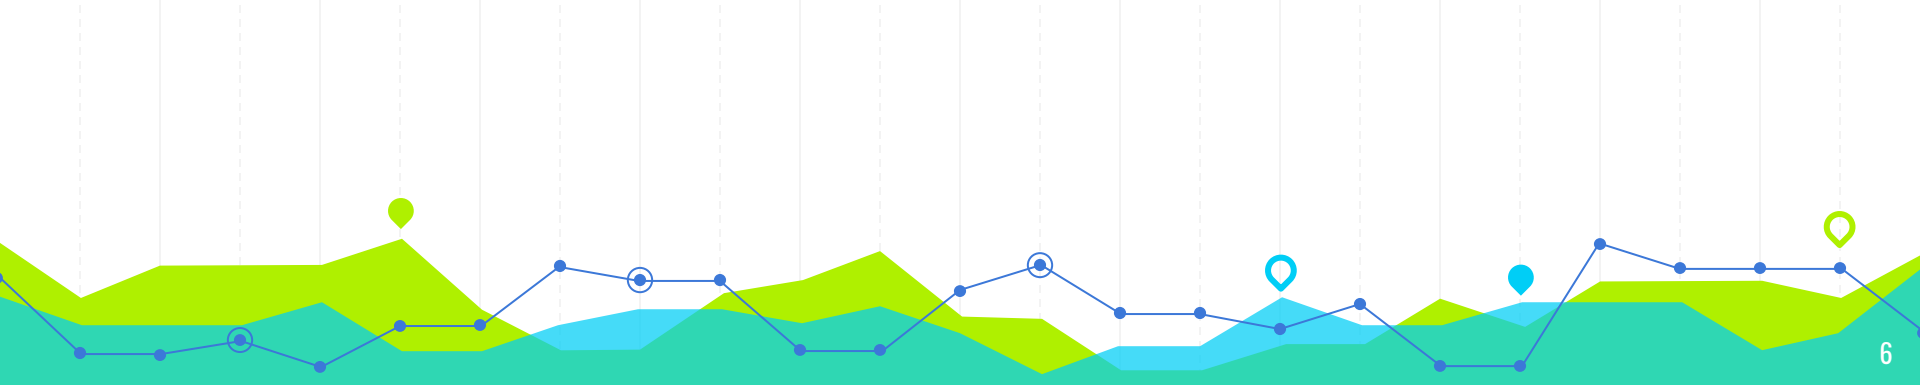

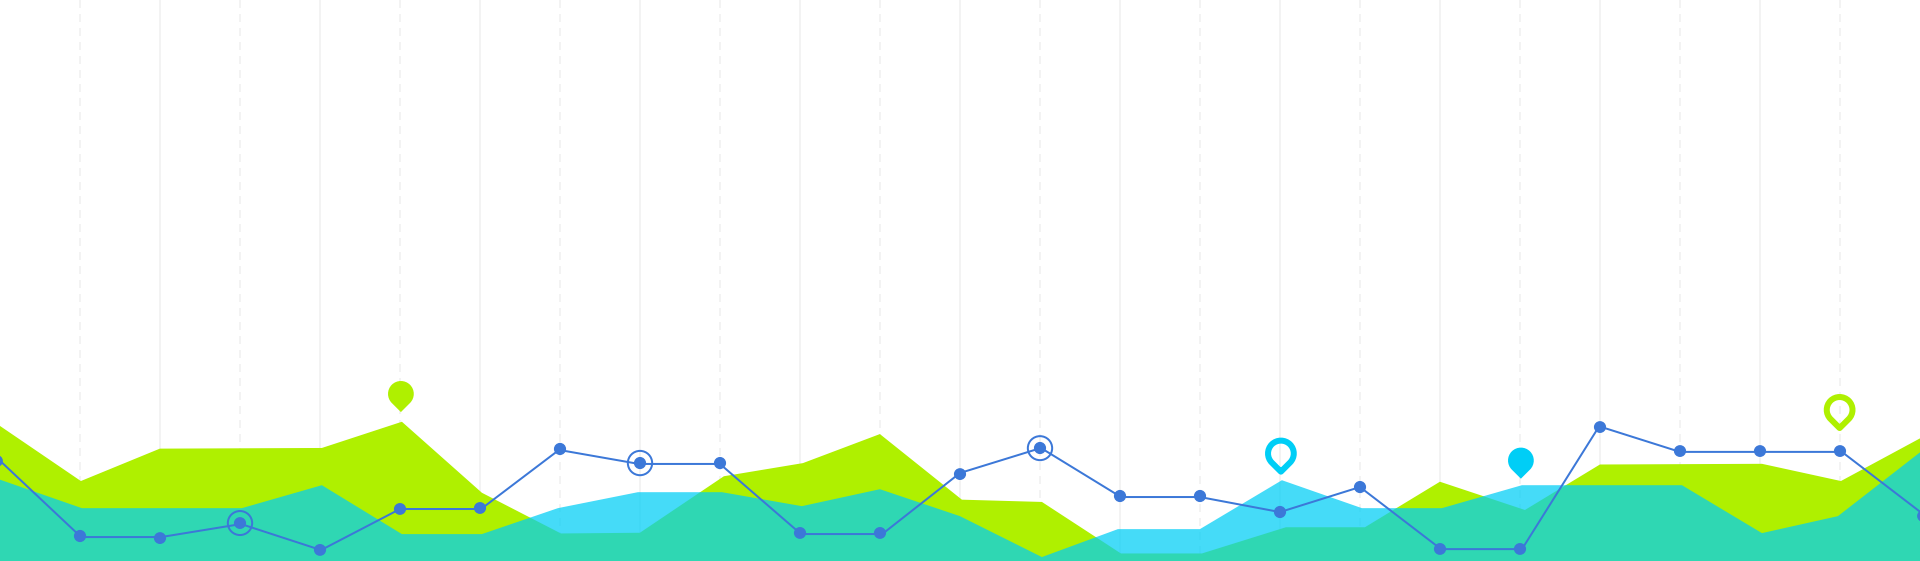

SOP

Statement of the Problem

"

Poverty occurs for many reasons, but in the Region IV-4 in Municipality of Batangas there are recurring factors that have slowed the development progress. Economic growth is low compared to Neighboring countries. GDP growth is comparable, however, GDP per capita in relation to the increase of population is much slower. Poverty directly impacts economic growth due to constraints in credit and the underdevelopment of the financial market and inequality in income and assets

Significance
of the **Study**

This research will provide the Analysis of Poverty People in Region IV-A in Municipality of Batangas. The research will specially benefit the following:
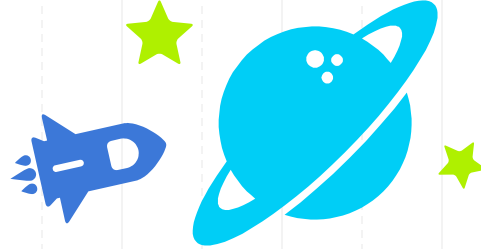

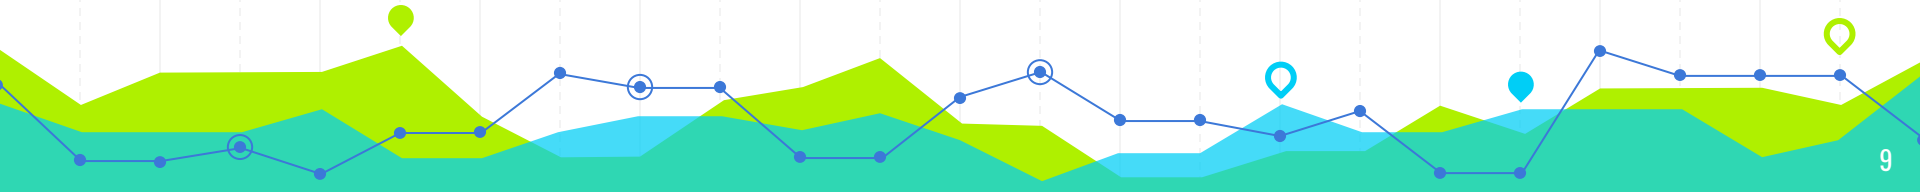

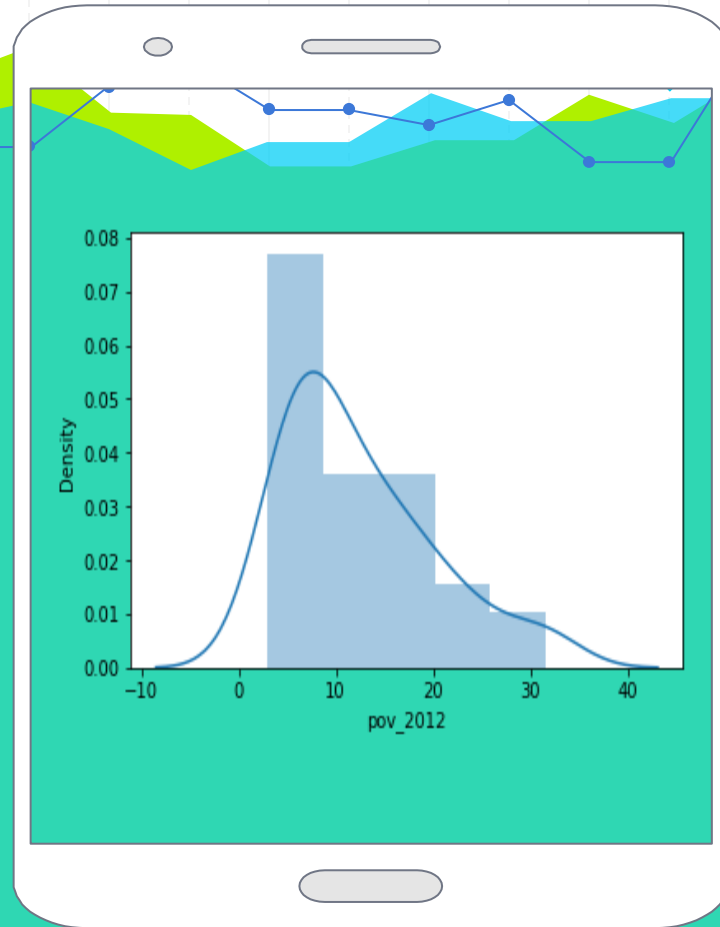

⊙ Government

⊙ Community

⊙ Citizen

⊙ Future Researchers
